

www.campingcar-infos.com

Version 3.0

Official appliance of the website

Présentation

This associative website lists all the areas in France with 42 other countries.

The most complete web database in terms of motorhome service areas is daily updated by a strong team of volunteers, with data, comments and pictures sent by motorhome owners.

This appliance allows:

- Find a reception area and / or motorhome services
- Manage your favorites
- Send information to the managers
- Transmit GPS coordinates to drive you through a compatible application to go to the selected area

At launch, this application offers choices between two modes :

- Green Globe: Connected mode: Free (Excluding the cost of Internet connection.)
- Red Globe: Offline mode: requires a subscription (12 or 40 €)

Switching between these two modes can be done at any time by clicking on the globe in the upper left side.

In order to reduce the size of the data to be downloaded, this new version is based on the cartography provided by Google-Maps in satellite mode or map mode.

Satellite display

Map mode

IMPORTANT

During the first launching of this new version, if you have a previous version with subscription out of date, the recovery will be automatically retrieved. Depending of the number of countries/areas present on your device, this operation can be very long and your device may appear to be frozen. Please wait.

Finding an area

Directly on the map

- Enable areas
- Choose a region to find an area either by clicking the GPS icon on bottom or sliding map
- Adjust the zoom level if necessary pressing + or –
- Select an area by pressing on its icon
- The beep (if enabled) will buzz when selecting an area. The name and number of the area will pop up
- Clic on the pop up to view the description of your choice

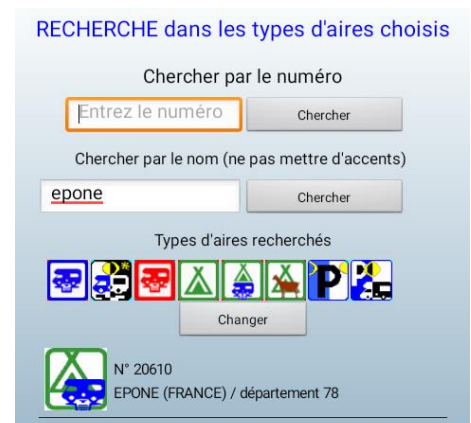

Search function

- Touch "search" (**rechercher**) on menu
- Choose the search type
- Search around a city is only active in France (**autour d'une ville**)
- Clic on cancel (**annuler**)

By name or number

- Search is done in the type of areas chosen in the options
- Enter the name or number of the area
- Clic on search
- Clic and choose the area
- The map is displayed, centered on the area
- Proceed as above

Around a city (France)

RECHERCHER UNE VILLE (en France uniquement)

Chercher par le nom (ne pas mettre d'accents)

28210 / SENANTES
38350 / NANTES-EN-RATIER
44000-44100-44200-44300 / NANTES
49390 / VERNANTES
60650 / SENANTES
77230 / VINANTES

- Enter the name of a city (no accent)
- All cities having the same name even partially will be displayed with zip code
- Choose the city you want to display
- The map is displayed, centered on the city
- Proceed searching on the map

Area card description

Areas cards come from our website database.

Information (address, GPS POI, prices etc.) are given by motorhome users. They are may be not updated if nobody gives recent information. It also includes pictures and comments relating only to the infrastructure and environment of the area.

The CCI Android app is not a GPS software, but allows you to transmit the coordinates to a compatible navigation software present on the device (Goggle maps, Here for example). To do this, clic the corresponding icon on the top of the area card.

The screenshot shows the top part of an area card. At the top, there are four icons: a map, a location pin, a camera, and a speech bubble. Below these icons, the text reads: "Pays : FRANCE", "N°: 18256", "Lat : 50.58038°", and "Lon : 2.7465°". A red box highlights the name "RICHEBOURG". Below this, there is a section for "Accès/adresse" with the address "Rue de la Briqueterie D166, 62136 RICHEBOURG". A "Tarif" section lists "2015", "Eau ou 55 mn d'électricité : 2 €", " Paiement par monnaieeur", and "Wifi gratuit, faire la demande à la mairie". There are also icons for "Type de borne" (AIRESERVICES) and "Services" (WC, Wi-Fi, etc.). At the bottom, a list of "Commerces à proximité" includes "Marché le samedi", "Tri sélectif", "Tables de pique-nique", "Aire de jeux", and "Circuit vélo".

Practical informations and services

The screenshot shows the middle part of the area card. It features a section titled "Autres informations :" with details: "Ouvert toute l'année", "7 emplacements vidéo-surveillés et éclairés", "Stationnement limité 48 heures", "Tel mairie : +33(0)321 021 206", and "http://www.richebourg62.com". Below this is a "Photos (6) :" section with a photo of a campsite. The photo is flanked by green arrows pointing left and right. Below the photo, it says "Publiée sur Campingcar-Infos" and "Mairie 62136 Richebourg 02 le 01/04/2012".

*Following informations and pictures.
Press the arrows to flip through the pictures*

The screenshot shows the bottom part of the area card, specifically the "Commentaires (15) :" section. It lists several comments with dates: "Pelot le 15/07/2015" (Extension prévue pour porter la capacité à 14 places. A suivre), "Michel34 le 24/05/2015" (Superbe aire, très calme; excellente étape pour visiter la région. Accueil très sympathique du Maire de Richebourg lors d'un bref passage sur l'aire. Grand merci à la Municipalité et à ses Habitants), "Edmondetsz le 24/03/2015" (De passage le 28/02/2015 et le 17/03/2015. Aire calme, agréable et bien conçue. Pas du tout dérangé par la salle de sport. On se sent bien accueillis. Merci à la municipalité.), "ferrand le 16/06/2014" (Début juin 2014. Y ai passé une nuit. Excellente étape. Propre, bien pensée, calme. Aire de service. Attention, que sept emplacements. Très, très bonne étape. Merci à la municipalité.), and "nannou le 10/05/2014" (Superbe aire, très calme et propre, merci à la municipalité).

Add comment

Add pictures

Add comments and / or pictures

It is possible, and even recommended, to add comments and pictures when using an area, directly or offline if connection is unavailable or poor quality. Your comments and pictures will be put on line after validation by our team.

Warning: Inappropriate comments or antisocial behavior will be removed by the managers. Thank you to write your comments concerning the infrastructure of the area and its surroundings.

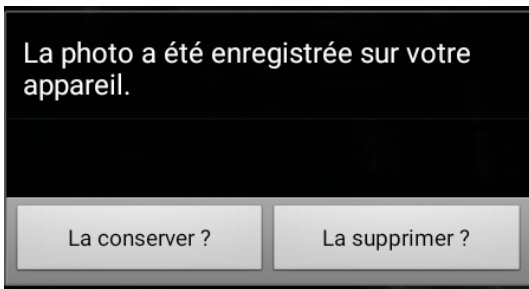

Add comments

- Touch to write a commentary
- Enter a nickname (required when you register the first time, then you will not need it anymore)
- Fill in the comment field as accurate as possible
- no more than 500 characters (spaces included)
- Touch send/save ([envoyer/enregistrer](#))
- If you send it directly, confirm the warning message
- Choose transmission via SMS or data connection (wifi or provider)
- The receipt of comment will be displayed
- Click on OK to return to the area card
- The comment will be stored on your device if you are offline.

Add pictures

- Click on picture icon from the area card
- Use landscape mode (preferably)
- After processing, choose delete or keep ([la conserver / la supprimer](#))

- Send now or later ([envoyer maintenant / plus tard](#))
- If send now, wait during processing
- If send later, picture will be saved on your device

Comments and pictures saved

- Select comments or pictures from the menu
- Status (sent or not sent to CCI) will be displayed
- Pictures cannot be modified (edited)
- Comments can be modified
- Pictures and comments can be deleted permanently
- Choose picture or comment to be sent
- Proceed as above when sending directly

Offline mode

Offline mode does not require any Internet connection; maps, data, information, comments and pictures are stored on the device.

Warning: Your device must have sufficient memory to store all this data. (See details on our website).

The offline mode allows you to use the application without SIM card, GSM and internet connection (no restrictions or cost using data). This is very interesting especially when being outside your country.

Subscription

To use this mode, you need to subscribe on our website :

http://www.campingcar-infos.com/abo_appli.php to download all data.

After registration through Paypal platform (you are free to have or not a Paypal account), password is sent immediately by email.

Warning: in case of input error or invalid email address, the order will be effective but you will not receive the password. If after a few hours (24 hours max), you don't receive the password, you should check in your spam folder before contacting our support team by email: aide@campingcar-infos.com providing all relevant information (including the order date). After checking by our team, they will send you your password as entered even if the address mail is wrong. They will be used only to check you subscription.

Subscription operation

Votre abonnement expirera dans 201 jours

Email

mot de passe

Vérification impossible

Vous êtes actuellement en mode hors connexion, la validité de votre abonnement ne peut pas être vérifiée. Voulez vous passer en mode 'connecté' ?

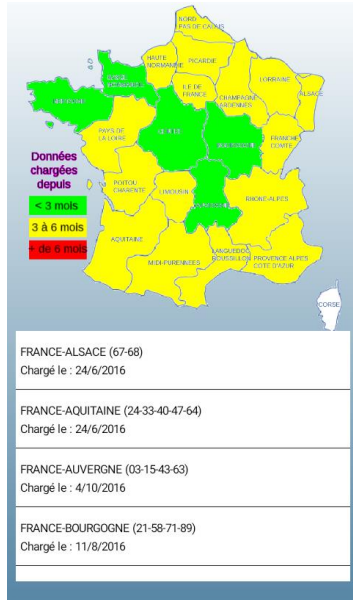

- In the menu, select subscription operation ([gestion abonnement](#))
- Fill in email and password fields
- Select *save*
- Validity period of your subscription appears

- If this message pop up, it means that you do not have connection
- Clic YES (**oui**)
- Be sure that the "airplane mode" is off
- Check you are in internet connection (must be on)
- Check also that you have enough mobile coverage

Data Management

During the period of validity of the subscription, no limit to download areas data of all the countries. Once subscription expires, the data remains accessible but can no longer be updated.

Uploading data

Nombre d'aires sur le site : 612

Copie des données sur l'appareil Chargé le : 24/6/2016

Photos	1153/1204
Commentaires	1983/2055
Fiches	604/612

- In the menu, select uploading data ([chargement des données](#))
- Choose France or other countries
- In France, the list of all regions appears
 - White : regions not loaded on device
 - Red : data loaded from 6 months ago
 - Yellow : data loaded between 3 and 6 months
 - Green : data loaded from less than 3 months
- The list of regions specifies the date of the last download on the device
- Select the region you want to download
- Compare site and device data.
- Choose to download or delete data

WARNING :

Check that the device has enough space before starting a download.

Preferably use a stable connection (wifi on a box).

It is impossible to download on a 2G network (EDGE).

Do not download while moving (risk of loss of connection).

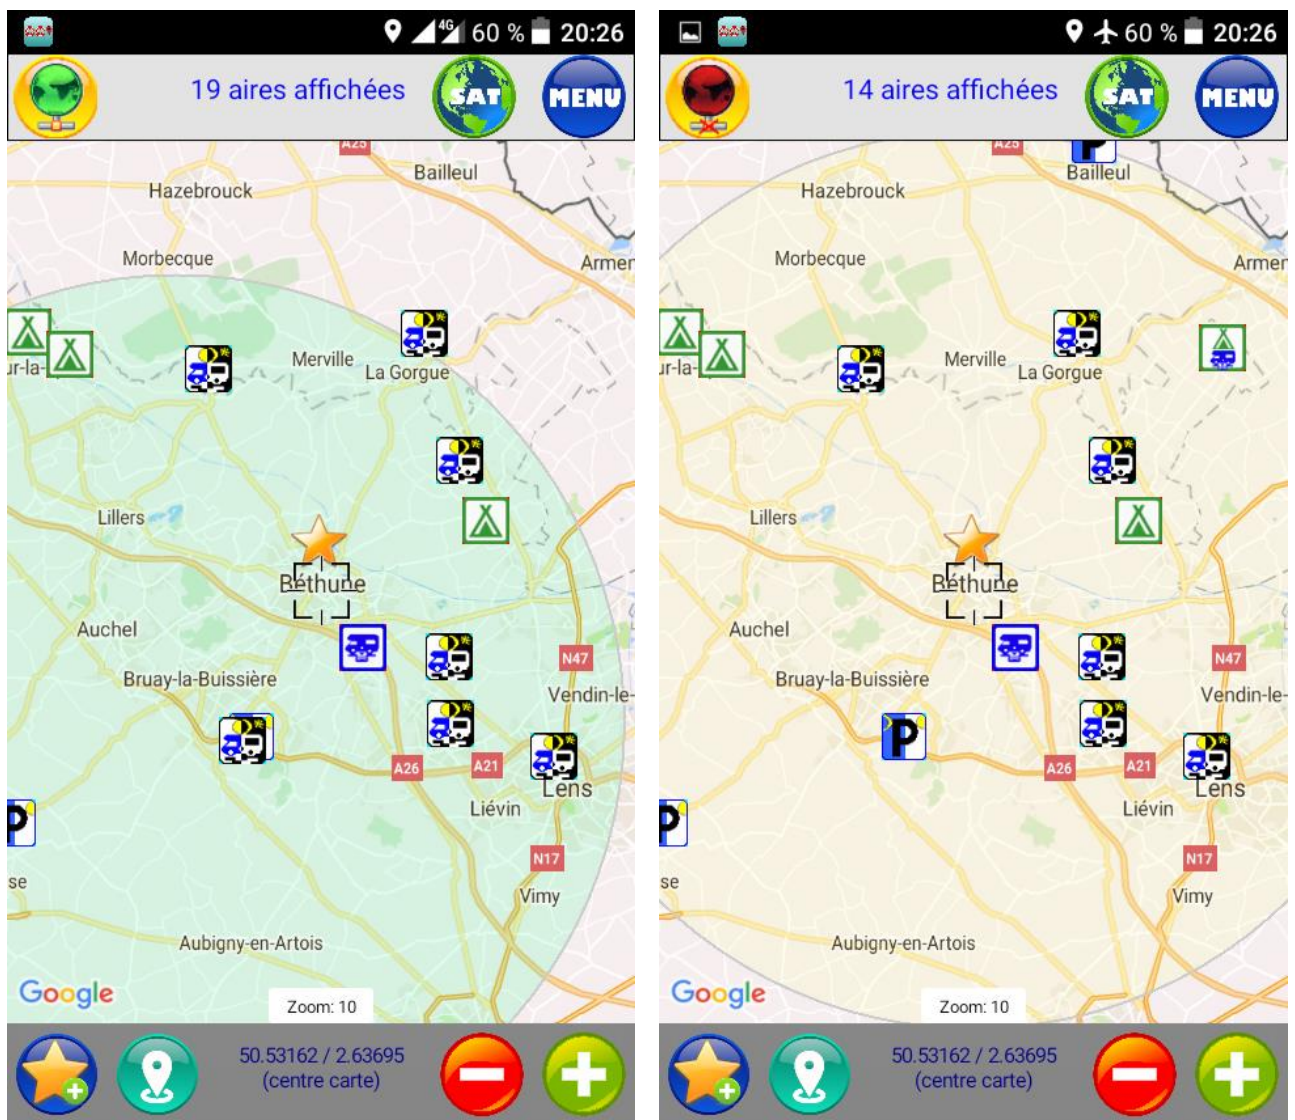

Not to launch other applications during the process, it may corrupt it or/and lock the device.

Beware of the cost of data when downloading via a GSM network.

Using offline mode

- After launching, click on the red globe to switch between connected and offline mode
- If the appli is already running, click on the green globe or go to the menu

To return in connected mode, make the reverse steps

In this example, data downloaded to the device is not updated. The difference in the number of areas is normal. After updating, the display and features are strictly identical except pictures and comments that will remain stored on the device in offline mode.

Favorites

The application allows storing favorite places (POI): areas but also restaurants, monuments, fishing place etc...

The application stores the GPS coordinates centered on the map:

⇒ for better accuracy, use the maximum zoom.

Create a favorite

Select zone with maximum zoom and click on the star

Name your favourite and click on save (**enregistrer**)

Favorite created and represented by a star on the map

Using Favorites

- In the menu, choose Favorites
- The list appears
- Select a favorite

- Display (**afficher**) : opens the map centered on the favorite's position
- Cancel (**annuler**): close the dialog box
- Remove (**supprimer**) : once and for all removes the favorite.
